

My Letter To William Poloc, 26th September 2021

The Draft Proposed Field Manual For Evangelism and Teaching
https://youtu.be/_foyULKsAhk

Dear William and Co.,

This is the proposed training Field Manual the we have discussed. I sent you this as a draft cover to remind you.

May I ask you to outline the various subject matters that you fell are essential to include in the manual now that you have the experience of working from the begging of forming a gospel Church (s). Please outline the important matters that you uncouted to include in the Field Manual.

The content I am asking you to draft out . It is to be written from your experience. And we can produce, and supply, any reference books that we wish to use as study text. Draw you subject matter for Louise Berkhof and use his work as a text book. He is from the USA and I will be able to reference his teaching by reference t the works of Dr. John Gill, to help British and European students.

My proposal is for you to use it in you work at you Theological Institute, and in your internet studies and lessons and to make use of the manual as a reference book here in the UK, and among up and coming ministers and believers. It could also be useful for Christians converted in the prison, to give them some idea of the problem of a gospel minister. I wish also to send it to Anil Anwar, a minister in Pakistan in order to encourage them in systematic studies.

I am including reminders of what we have disused in the Past all hyper linked to our published material, including Louise Berkhof and my reference to the Difficulties Associated With Articles of Religion.

May I ask you to draft an outline of the various subject matters that you believe, from your experience, and that you have found important to produce such a the Field Manual.

Just a reminder
