

Dear John,

Youtube link <https://youtu.be/Bo9cdhkqz5g>

I spoke to Mick Brown on Sunday, after the meeting, and expressed that I felt you were right to feel offended at not being consulted over the issues raised against you and raise by them. Mike acknowledged that he too felt he should have spoken to you and that he would like to do so.

I explained that I felt it was his responsibility because if they were right then they owed it to you to address all matters in order to you to respond appropriately.

As I am not a church member I am not privy to the private matters that were raise by the elders, or the church, but feel I have good reason to enquire and ask to be informed, so that I my act appropriately.

As you know i have been in attendance, as a member of the congregation of the Church, for almost 3 years, being involved in the many activities, so I am not an impartial observer.

I, too have during my time as a Christian, had to deal with Articles Of Religion, making applications to Joining churches. I have been virtually told to leave a church. I have been told the I would not be accepted as a member of a Gospel Standard Strict Baptists Church any where, and for the past 14 years, or so, been out of fellowship with any Christian Church.

I have continued as the sole remaining member of the Bierton Strict and Particular Baptists, given myself to doing what I can, working, internationally, by publishing and producing educational books, audio and

video materials, all for the furtherance of the Gospel testifying to small and great the wonderful works of God.

I came to meet with the Church at Hill Park, 3 years ago, after feeling I ought to try meeting Christians again. I intended to keep low profile and be as helpful and cooperative as I could with no intention of raising any issues of dispute.

As you know we meet on several occasions and we both realised we all had our own views on certain issues, but no contentions were raised and laid aside. And any differences of opinion, it was acknowledged, could be dealt with in due course.

The problem we had was finding the time and establishing a method of addressing any of those differences, and Covid 19 prevented this.

It came as a matter of surprise when things happened to you all, as it did and the division that has occurred.

However as things were with the church, I was not free to make an application to become a member of the Church, as there were matters that had occurred and raised that needed to be addressed and some of these I understand are those issues that were raised by the elders between yourselves.

Also I do not know the doctrinal standing of the Church, as I had never had the opportunity to discuss, or converse with the elders over those various important matters. And I hate controversy but sometimes it is necessary.

This has left me free to work and help who ever I can, not being a member of your Church, and I have offered to help in the activities of the Church, under the supervision of the elders, in various ways, so that no doctrinal conflicts of interests with the Church, or myself would take place.

I have a proposal for you to become a student of Bierton Particular Baptists Theological Institute of which I am seeking to link with Baguio Christ Centred Churches, in the Philippines. I also wish my son to enrol, who is due to return to the UK, in December, along with his wife (who is not a Christian) and my daughter Rebekah who is a Christian, and her

partner (who is not a Christian). I would also encourage the Church in Pakistan and of course the Church meeting at Hill Park to partake.

We may well be able meet at Hill Park as the elders may wish to enrol as students too. We can also invite other students to join us using various means of teaching.

Lectures and lessons can be tailor made to aim at all educational levels including a theological degree.

We are able to treat Church history, having a reformed view of Soteriology. Also Eschatology and a range of current Christian issues. We have all the text books, which we have personally produced and published.. All made available as free PDF downloads, along with course work. This study will be open to all registered students. And of course open to the elders at Hill Park and church members. I have approached William Poloc to assist in this work.

Mean while I expect you and Mike Brown will speak to each other about the issues and I hope he will make it clear to you the biblical reasons for their actions and you have the privilege, as a Church member, to respond appropriately.

Mean while I have made available the enclosed book for your reading to introduce you to some of our biblical studies

.
A History Of The Work Of Redemption, by Jonathan Edwards. <https://www.biertonparticularbaptists.co.uk/resources/A%20History%20of%20The%20Work%20Of%20Redemption%209%20by%206%20margins.pdf>

If you go to the back of the book there is hyper link access to over 50 of our publications, that are used as teaching material.

If this suggestion sounds reasonable let us meet up to discuss matters.

Yours in the name of or Lord Jesus Christ
David Clarke
